The Ugly Fruit That Got Sweet Revenge

There once were fruits that felt quite blue,
With bumpy skins and spots of hue—
The bananas were bent, the mangoes were lumpy,
The strawberries small, and the oranges dumpy.

“They’ re too weird to sell!” the shoppers would say,
“Put ’ em in the back, just throw ’ em away!”
The ugly fruits sighed, their little hearts sore,
“Who’ ll ever love us? We’ re not pretty core.”

But one sunny day, a chef with big eyes,
Said, “These fruits are **perfect**—don’ t you realize?
Bumps don’ t mean bad, and spots don’ t mean yuck,
They’ re full of sugar and **super** good luck!”

She chopped up the lumpy, the bent, and the spotted,
Mixed them with joy, and the magic got started:
Bumpy mangoes turned smooth mango mousse,
Spotty strawberries made strawberry juice!

Bent bananas baked into warm banana bread,
Ugly apples turned caramel spread,
Wonky oranges zinged in bright orange tart,
Every “ugly” became a delicious work of art!

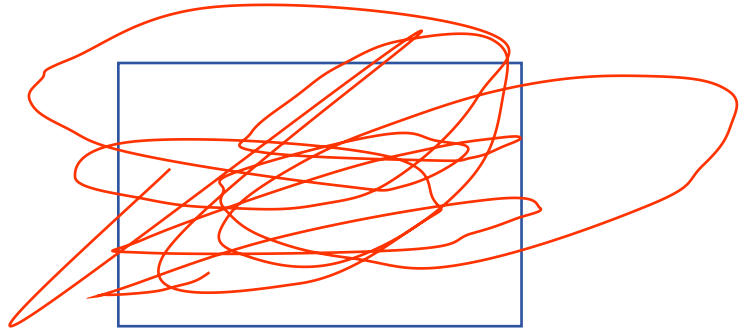

Now kids cheer loud at the dessert table sight,
Screaming, “Gimme the ugly ones—they taste OUT OF
SIGHT!”

The fruits grin wide, no longer sad or small,
‘Cause beauty’ s inside—*and* it tastes amazing, y’ all!

The moral is clear, so listen real good:
Don’ t judge a snack by its lumpy hood!
Ugly outside, yummy inside, that’ s the rule,
We’ re all beautiful treats—cool, cool, COOL!
